Dear Sally,

I am writing to invite you to participate in a global health learning trip to Ethiopia and Uganda, sponsored by the United Nations Foundation. Trip participants will depart on Saturday, August 3, 2019 and return on Saturday, August 10, 2019.

The learning trip is designed to showcase vital child health interventions with a special focus on bilateral investments in immunization and malaria programs led by the United States and the United Nations. This opportunity will also showcase the work of agency and multilateral institutions like Gavi, the Vaccine Alliance, the President's Malaria Initiative (PMI), and the Global Fund to Fight AIDS, Tuberculosis, and Malaria (Global Fund), in coordination with the Governments of Ethiopia and Uganda.

With support from U.S., the UN, and multilateral partnerships, over the past two decades Ethiopia and Uganda have seen significant success in improving child health outcomes, particularly by expanding access to life-saving child vaccines. Similarly, these countries have succeeded in lowering incidence and deaths due to malaria over the last two decades, with several highly populated areas – including Addis Ababa – recently declared malaria free.

The itinerary will include site visits to observe rural and urban healthcare settings, disease surveillance systems and service delivery in the field, social mobilization strategies, and community health worker impact. These experiences will be framed by briefings with bilateral and multilateral agencies, including CDC, USAID, UNICEF, and WHO.

We hope you will be able to join, as we are confident the health interventions and coordinated efforts you will see first-hand will be particularly beneficial to your work in Congress. Please do not hesitate to contact me if I can be of further assistance as you consider this opportunity.

Sincerely,

Peter Yeo
Senior Vice President, UN Foundation
